

# push-in T-fitting NPQP-T-R12-Q12-FD

Part number: 133080

FESTO

## Data sheet

| Feature                                  | Value                                                    |
|------------------------------------------|----------------------------------------------------------|
| Size                                     | Standard                                                 |
| Nominal size                             | 6.9 mm                                                   |
| Container size                           | 1                                                        |
| Design structure                         | Push/pull principle                                      |
| Temperature dependent operating pressure | -0.95 ... 10 bar                                         |
| Operating medium                         | Compressed air in accordance with ISO8573-1:2010 [7:-:-] |
| Note on operating and pilot medium       | Lubricated operation possible                            |
| Corrosion resistance classification CRC  | 4 - Very high corrosion stress                           |
| Food-safe                                | See Supplementary material information                   |
| Ambient temperature                      | -20 ... 60 °C                                            |
| Product weight                           | 28 g                                                     |
| Pneumatic connection, port 1             | R1/2                                                     |
| Pneumatic connection, port 2             | For tubing outside diameter 12 mm                        |
| Materials note                           | Contains PWIS substances<br>Conforms to RoHS             |
| Material housing                         | PP                                                       |
| Material of tube retaining claw          | High alloy steel, non-corrosive                          |
