

# push-in connector NPQM-D-Q8-S6-P10

Part number: 558771

FESTO

## Data sheet

| Feature                                       | Value                                                    |
|-----------------------------------------------|----------------------------------------------------------|
| Size                                          | Standard                                                 |
| Nominal size                                  | 4 mm                                                     |
| Design structure                              | Push/pull principle                                      |
| Operating pressure complete temperature range | -0.95 ... 16 bar                                         |
| Operating medium                              | Compressed air in accordance with ISO8573-1:2010 [7:-:-] |
| Note on operating and pilot medium            | Lubricated operation possible                            |
| Corrosion resistance classification CRC       | 1 - Low corrosion stress                                 |
| Ambient temperature                           | -20 ... 70 °C                                            |
| Product weight                                | 13.5 g                                                   |
| Pneumatic connection, port 1                  | Push-in sleeve QS-6                                      |
| Pneumatic connection, port 2                  | For tubing outside diameter 8 mm                         |
| Materials note                                | Conforms to RoHS                                         |
| Material housing                              | Nickel-plated brass                                      |
| Material of tubing seal                       | NBR                                                      |
